Southern Sentiment.

The proofs are daily increasing of the unanimity of sentiment among the best people in the South that has developed into expression, if not quickened into life, since the 2nd of July. In addition to the large number of proofs we have given of this, take the following from the Memphis Appeal:

"From present indications the murderous assault upon the President because of his conservative, conciliatory policy will have a tendency to inaugurate the era of good feeling, the very thing for which the South yearns, and which patriots of all sections desire. One thing is certain, the shadow of a terrible calamity has softened the asperity between the sections, and inspired both Democrats and Republicans with a desire to live better political lives, to seek higher aims, and with sincere humility to amend those faults which have brought this shame upon the nation. The South has heretofore been solid, and in the mighty upheaval, the startling revolution which the assault upon the President has produced, the possibilities are that in the next Presidential election a combination will be formed that will make not only the South but the whole country solid in support of a ticket which repudiates the Stalwarts of both sections."

The Undecided Man.

Boston Courier.

The undecided man is, perhaps, the greatest bore in existence. He is a trouble to himself and everyone with whom he comes in contact. For instance, there is Thistle-down, who lives half way between two avenues by which horse-cars convey passengers down town. When he gets out of doors of a morning he stands on his doorstep and looks first up the street and then down to see if there are any cars coming, which is perfectly useless, as he couldn't see them on account of intervening buildings, if they were. Then he goes to the corner of one avenue, and not discovering the necessary vehicle in sight, he walks the full length of the street to the other main thoroughfare. By the time he gets there he sees a car passing at the other end of the block and he hurriedly retraces his steps. He is too late, however, to catch the conductor's eye and he makes a dive down the opposite direction only to miss another car. Thus he spends his morning like a kind of human pendulum, and gets to his place of business about noon. As a waste of his own and other people's time he is undoubtedly a great success.

Large Mouths.

The fashions in women are varying, like the shapes of bonnets, and the colors of them, and the coming and going of flowers and feathers and ribbons. We used to be contented with the simple fashion of dark or fair women, each of whom had their peculiar seasons of success; but the world has become more exacting in its tastes, and now demands that the women in fashion at the moment shall be not only of the fashionable complexion but shall have the known fashionable features. Just at this time the fashion seems to be of women with large mouths—a style quite as unaccountable as anything devised by dress-maker or milliner. Who invented this fashion of big mouths it is impossible to state officially, but it probably has its advantages, if anybody could tell what they are. The large mouth is pretty generally accompanied by a generous expanse of lips, and woman's lips are a thing of such actual delight that the inventor of the fashion of large mouths doubtless supposed there could not be too much of them.

Tickets Made by the Conductors.

The Traveler.

The latest in railway appliances is the invention of a Berlin engineer, that teetotally eclipses the bell punch in ingenuity and practical device. It is an apparatus for train conductors, which, hung around the neck, completely manufactures passenger tickets. They are made before the eyes of the wondering public, and though the apparatus is said to be of a somewhat complicated construction, its manipulation is as simple and easy as its working is correct, for, should the operator not proceed in the way required by the mechanism, it will not print all the figures and words wanted, but the word "false" (wrong) in the place where the fault was committed. At the same time this portable printer checks the number of tickets issued, so that at any given moment the money in the hands of the conductor can be compared with the value of the tickets printed and taken.

Paper Blankets.

An English firm has commenced the manufacture of paper blankets. They are made as soft, and are warmer and altogether lighter and cheaper than their woolen predecessors.

Slaven's Effervescent California Fruit Salt

Is prepared from sound, ripe fruit, by an experienced analytical chemist, who has spent years in experimenting on its preparation. It is manufactured by a special process known only to the proprietor. This preparation is a safe, simple and effective medicine for regulating the action of the stomach, liver and kidneys. It is most particularly recommended for Dyspepsia, Indigestion, Headache, Heartburn, Acidity of the Stomach, Biliousness, Constipation, Nausea, Sea Sickness, Neuralgia and Liver Troubles. Over-indulgence either in eating or drinking, etc. As a purifier of the blood in all Scrofulous Diseases, it has no equal. It removes all eruptions from the skin, and has a cooling and invigorating effect on the system. The FRUIT SALT is entirely different from any of the effervescent Salts or "Seltzer" preparations in the market, being manufactured from Fruit. For sale by all druggists.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold. A few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly advise you to try it. Price 50 cents a bottle. Sold by all druggists. Price \$1.00. If your Lungs are sore, Chest or Back lame, use Shiloh's Porous Plasters. Price 25 cents. Sold by Osburn & Shoemaker, Druggists, Reno, Nevada.

Honored and Blessed.

When a card of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were skeptical; but proof of its merits by actual trial dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

What Dr. Gardner Says:

Toledo, Ohio, January 1, 1879. "The California Plaster Company, Gentlemen: Please send immediately one gross of your Fine and Scaly Plaster Plasters. I have been using them in my practice for the past three months and find their effects most wonderful, especially in Lung troubles and all affections of the Spine and Kidneys. In my judgment they are far superior to any Plasters manufactured. I can conscientiously recommend them to my professional brethren." H. H. GARDNER, M. D.

The Ice Cream Parlors.

Cor. Second and Center streets, are now open to the public. Hotels and families supplied at the lowest rates. Picnics and Church feasts a specialty. The wagon will pass through the city daily to deliver and receive orders. Mr. Campbell will receive and deliver orders. Mrs. S. E. WELCH.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints? If you think so call at our store and get a bottle of Shiloh's Vitalizer. Every bottle has a printed guarantee on it. Use accordingly and if it does you no good it will cost you nothing. Sold by Osburn & Shoemaker, Reno, Nevada. nov-20-d&w

HUB PUNCH

TO TOP OFF A DINNER, May be Drank Clear, as a Cordial

For a dinner thoroughly appointed, the good old way was to wash down the last triumphs of the feast with copious libations of old Port and Golden Sherry; but "HUB PUNCH" has added a new sensation to the epicure. Its delicacy, aroma, flavor, and delicious, but gentle effects, proclaim it the perfect fit for the gods banqueting on Olympus.

Mix HUB PUNCH with Ice Water, Cold Tea, Lemonade, or Soda, and you have a refreshing beverage.

Treat all Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever sold at the altar of enduring humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and upwards who are troubled with too frequent evacuations of the bladder, often accompanied by slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will be found, and some small particles of albumen will appear, or the color will be of a thick milky hue, changing to a dark and watery turbid appearance. There are many men who die of this difficulty, ignorant of the cause which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genital-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sunday from 10 to 11 A. M. Consultation Free. Thorough examination and advice \$5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.

EDITORIAL NOTES.

The recent popular expression of opinion on the patronage system has shown that Mr. Albert Stickney did not anticipate public sentiment in naming his series of papers in *Scribner* on civil-service evils. "The People's Problem." It remains to be seen with how much favor the people, who now no longer need the argument of his first paper (which was to show how the spoils system works practical disfranchisement), will regard the scheme which he suggests by way of permanent reform.

Wendell Phillips is called by the Boston Post "the white-haired instigator of assassination, who preaches anarchy even at a literary feast." The Post must be intimate with the New England orator.

While ex-Controller Hobart was on finances why did he not tell us about that sound financial policy which he brought forth with pain during his gubernatorial illness in '77.

Who is this man "ex" who writes so many beautiful articles for the Carson Tribune?

Good News from Modoc.

The GAZETTE is reliably informed that the government telegraph line to Bidwell will shortly be built. Lieutenant Miller's report was favorable, and the line will be built by contract, instead of by the soldiers as intended. Through Major Wells the GAZETTE learns that Major General McDowell will shortly make a tour of the Pacific posts, and he may be expected to act upon all proposed improvements immediately thereafter.

General McDowell will leave San Francisco on Monday next he will go to Redding, from thence to visit the Northern posts, and thence, by way of Klamath and Bidwell to Reno. He may be expected here within one month and probably sooner. The line to Bidwell will be built, and in all probability this fall. The contract for a good share of the work will be let to contracting citizens instead of being done by Captain Wells' command as was intended.

Frightful Suffering.

The Ward *Reflex* of last Saturday says: "Bishop Whitaker passed through yesterday morning on his way to Pioche. If the Bishop only knew what a source of annoyance he is to the average stage driver he would travel less. Baldy Green once went dry from Hamilton to Patterson with a bottle in his pocket, and all because he was overruled by the Bishop, who had engaged an outside seat."

The Carson *Appeal* says that Hank Monk also has a grievance against the Bishop. He says he once traveled from Carson to Glenbrook and never told a lie because the Bishop was alongside, and was laid up sick a week in consequence.

The night is long that never finds a day.—*S. H. Keppeler.*

The Battle Mountain *Messenger* has commenced a semi-weekly issue. Its publication days will be Wednesdays and Saturdays.

Yager and Whitney, of Carson, are negotiating for the purchase of 80,000 tons of tailings at Unionville. They intend, if they succeed in getting the tailings, to erect a roasting furnace, and perhaps a mill at Unionville.

In Eldorado Canyon, near Pioche, on the 4th of July an intoxicated man named Charles Bronson and Benj. Piat got into a row and the latter beat the former, kicking him in the stomach so severely that he died at daybreak on the morning of the 6th.

The Grand Lodge, Knights of Pythias, meets in Virginia on the 19th of August, and a large delegation of California Knights will be in attendance, an excursion from California having been arranged for. The Eureka Knights propose getting up a car of fifty.

The Tahoe *Tattler* says: "Lloyd Hawthorn, of the steamer Governor Stanford, while endeavoring to push the boat off the wharf at Tallac Thursday, lost his footing and dropped in to the lake. In the fall he hit his head against the boat which somewhat stunned him, and but for the timely assistance of friends he would probably have drowned."

Fish Facts.

The chub are said to be dying out in Donner Lake in great numbers. The disease manifests itself in sores on the head and body. It would be a good thing if they all died for they are a very poor food fish and they spoil the sport. When a man throws out a fly they swarm around it so the trout cannot get near it.

Rescued From Death.

William J. Conghlin, of Somerville, Mass., says: In the fall of 1876 I was taken with BLEEDING OF THE LUNGS followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WILLIAM HALL'S BALSAM FOR THE LUNGS. I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past. I write this hoping every one afflicted with Diseased Lungs will take DR. WILLIAM HALL'S BALSAM, and be convinced that CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since my sickness.

THE CIRCUIT.

Where all of the Noted Trotters and Runners Are—Promising Youngsters—Prospect of the Season.

In connection with the speed programme published to-day the GAZETTE is able to give, through the courtesy of Killip & Co., San Francisco, some interesting turf notes. These matters will be given space in this paper during the entire season.

The prospects for the coming campaign are very promising, as there is an unusually large number of horses in active training at Oakland, Sacramento, Los Angeles and various other places in California; and so far, not a single trotting or running horse has gone amiss. At

OAKLAND TROTTING PARK

The following stables are now quartered: John Goldsmith's, including Gibraltar, Bateman and a promising 4-year-old; Wm. Corbitt's—San Mateo Belle, Mollie Drew, and a fast 3-year-old; Wm. Cade's—Nimrod, (pacer), Annie Laurie and others; Henry McCone's—Blackmore, Tommy Dodd, and a fast green mare; Johnson's—Pascora, Hayward and a Thad Stevens filly (promising); McIntyre's—Susie and a black horse now owned by Budd Doble, which created a sensation in Nevada two years ago. His name cannot now be recalled. McCarthy's string—consisting of Hancock, Alice Garrett and others; and the stables of Messrs. Hines and Dewarne, containing a number of very promising youngsters. Joseph C. Simpson's 2-year-old Anteeo, the winner of the Embury stakes for 1880, is also in training there and if nothing happens him he will give a good account of himself in the two-year-old stakes this fall. The mare Empress, well-known as the Dietz mare, is also in training and will undoubtedly be entered at all the various meetings. She has no record, but has shown her mile in 2:28, and being now one year older than when she made this performance, it would not be surprising if she made a mark below the "twenties."

AT SANTA ROSA,

Steve Crandall has Alex. Button and a very promising green 3-year-old mare. Washington, (pacer), and a number of others are at Petaluma, while Nutwood is at San Jose, where his owner, Mr. Knox, resides. It is said that Knox has a very fast young stallion in hand, besides a number of other youngsters. Brigadier is also doing well and will be heard from in the free for all, in which class he will have to compete with Abbottsford, Nutwood and Bateman. L. J. Rose's stable is at

"SUNNY SLOPE," LOS ANGELES, and we hear that Sweetheart, Del Sur, Belle Echo, Echora, Dido, (pacer), and others are doing finely. Mr. Rose has a number of entries in the colt stakes and, after what Sweetheart has accomplished, we may reasonably expect to hear a good account of his stable. We also hear a great deal said about Mr. Titus' stable. Major is now owned by Nick Covarrubias, of Santa Barbara and Ashley is in training at Sacramento. Last, but not least are the stables of

PALO ALTO,

where Gov. Stanford has so many good ones that it is useless to particularize but we will say that Fred Crocker (record 2:25 1/4 as a two-year-old) Capt. Smith, Hattie Crocker, Len Rose, Benefit, etc., will be heard from, while it is not unlikely that out of the 100 or more youngsters in training, several will make a good showing in the stakes.

RUNNING STABLES.

The stables of E. J. Baldwin, Theo. Winters, Geo. Hearst, J. B. Chase and Geo. Howson are at Sacramento, Dorsey's stable is at Oakland as is also Mr. Terry's, while Judge McShafter and P. Pacheco, have theirs at San Rafael, and all are doing well.

The circuit begins here at Santa Rosa, Tuesday, August 30th, continuing five days, Chico and Petaluma fall on the same dates, September 6th, Oakland September 12th and the state fair at Sacramento begins September 19th. Stockton on the 27th of September and San Jose October 3d.

All of the horsemen with whom we have conversed have expressed a desire to visit Reno, but as no date has yet been decided upon of course they cannot decide what to do. We trust, however, that the management will offer such inducements in the way of a speed programme as to make it an object for them to do so.

Skating.

The rink at the Pavilion will be open this evening for the merry skaters. Wormington reports the skates and floor in the best of order.

Still Another Comet.

Prof. Swift, director of the Warner Observatory, Rochester, N. Y., has just verified the discovery of another comet, in the Constellation of Auriga, made July 14th, by Prof. J. M. Schaeberle, of Ann Arbor, Mich. This new comet is apparently coming directly towards the earth, and, for a telescopic comet, is very bright; indeed, it can readily be seen with a good opera glass. It is quite remarkable that it should be in just the spot where the present large comet was first seen by the naked eye in this latitude, and it shows that the two bodies must have crossed each other's paths. This makes the fourth comet discovered within ten weeks, a circumstance heretofore unknown in history. Prof. Schaeberle has duly filed his application for the Warner prize of \$200, and as yet he is the only claimant.

They Didn't "Want-er."

Last Wednesday a representative of the Second Judicial Court, and a representative of the Congressional body in this county, started on a trip to the top of Mount Rose, by way of White's Canyon. What with blanket, etc., etc., they probably looked like two festive tramps; for they had not gone more than two or three miles along the country road when they espied a buggy standing in the middle, and upon reaching it a bright young woman thus addressed them, in telling nasal tones: "Say, you two fellows don't want ter take a dollar chance in a raffle for a orgin, do yer." The limb of the law thought they "didn't want-er."

Palace Restaurant.

Sam. E. Welch, the well-known caterer, will open the new restaurant in the Palace hotel to-night. He has every facility for a first-class establishment. He will have a French cook and the restaurant will be run according to his own ideas. He will be ably seconded by Mrs. S. E. Welch well-known to all hungry travelers.

HOME AGAIN.

Ex-Congressman Daggett on Political Affairs in New York and Nevada.

Congressman Daggett arrived in Reno last night and was immediately surrounded by friends who awaited his coming. "The heat," remarked he, "in the East is simply overpowering. I have stood it pretty well, but am glad to get home."

The scent of the sagebrush seemed to fill Daggett's nostrils and bring the rosy blushes of youth back to his face.

A GAZETTE reporter, after welcoming the wanderer "to these shores" inserted the reportorial pump in the ex-Congressman's well filled intellectual well and brought to the surface what follows:

"The President is going to get well. He has the best doctors in the world, and the doctors have the best patient in the world."

"How about Conkling?"

"Conkling is a great, big man, but he has been too dictatorial entirely. In New York his defenders are found solely among his personal friends. The people generally condemn his course severely. He will not bolt the Republican party; is to good a party man. He will wait two years and the feeling having died out, can be re-elected probably."

"What do you think of his successors?"

"Lapham is a strong man. In every way worthy, and as stalwart as Conkling himself. Miller has not made as much of a record as Judge Lapham. Conkling cannot lead the Anti-Monopoly party, there are too many strong men there ahead of him."

"How about the Star routes?"

"Brady and his associates richly deserve punishment, and it is coming. I may say that I was instrumental in starting that ball rolling. It came about indirectly through my defense of an old Ohio farmer and friend named Jennings. I hope to see Brady & Co. where they belong."

Daggett did not know that he was running for Governor of Nevada until informed by the reporter. He said that strange things sometimes happened. A man had been known to run for office before he knew it. The ex-Congressman went to Oakland last night and will return in a few days.

The Manufacture of Soda Water.

In the rural districts a vile mixture of bi-carbonate of soda and water is sometimes palmed off on the rustics for soda water, but in the large cities where the largest amount is sold, it is made by a far different process. The water, filtered and contained in copper or steel fountains lined with pure block tin, is impregnated with carbonic acid gas, at a pressure of from 150 to 300 pounds to the square inch. The gas is evolved in a copper generator capable of standing an immense pressure, and thoroughly washed before passing into the water. The materials used for producing the gas in all places where much is used, and a superior quality desired, are snow-white marble dust and sulphuric acid, nothing making better gas than these. From the fountains in the cellar to the draught apparatus on the counter, the gas-impregnated water is forced by its own pressure through a block tin pipe into coolers of pure block tin, and surrounded with ice, whence it is drawn, cool and sparkling, into the glass. The fresh fruit and other syrups are kept in glass tanks—so are always sweet and cold. All the advantages of this apparatus, coupled with cleanliness in and about the fountains, are what makes the soda drawn by Osborn & Shoemaker cooler, cleaner, and more healthful than any other in Reno, and equal to any in the world. It is not to be supposed, nor is it true, that a home-made outfit with a brass draught tube, and warm syrups kept in fly-covered bottles, can compete in quality with such an establishment as this.

The New Car Shop

The new car shop will stand where the cattle corral now stands between the V. & T. and C. P. tracks. The track that was formerly used to stand the lightning train on will run through it and come out between the water tank and engine house. An iron oil house will be built somewhere near the shop.

Wadsworth Items.

The carpenters are putting a new floor in the Stationary engine room at Wadsworth and making other repairs. Raphael shipped three car loads of borax and soda yesterday. The shops are running full handed and are doing lots of work.

HANDSOME HOTEL.

Some Changes Which Have Been Made in Refitting a Palace.

The work of refitting the Palace Hotel on the corner of Commercial Row and Centre Street has at length been completed. Messrs. Perkins and White have as fine a hotel as can be found in the State. The entire upper story was torn out and remodeled. Every room is of good size and has abundant light. On the east side the rooms can all be thrown into suites if desired. New carpets and furniture have been provided throughout. The first floor is occupied by the bar room, office, billiard room, club rooms and restaurant. The bar, built by Sam. Myers, is the finest in the State. It is surrounded by a huge mirror and the finest bar ornaments. The pictures in the bar and club rooms are alone worth a visit to the Palace. Two fine billiard tables are placed in the rear and at the proper legal altitude, a fair has been provided for the tiger.

A new piano stands in the parlor, and the house is indeed what its name indicates, a palace. Perkins and White are very popular and have hosts of friends who will help to warm the new house.

A New Use for Sagebrush.

The sagebrush of Nevada, generally considered a thoroughly worthless piece of vegetation, seems destined to have its uses after all. A French investigator, M. Poyrot, has been experimenting on the value of sagebrush as a preventive and destroyer of phylloxera. He was led to his investigations by noticing that the sagebrush on the plains are free from insects. He proposes either to bury the stocks near the vines, or to mix the brush with the manure.

Earthquakes.

The quake season has arrived and four tremors were reported last night and this morning. The first occurred at 8:50 p. m. yesterday. The second and largest occurred at 4:05 this morning. This shock rattled some of the larger experiences of this kind in California. Two others followed at 4:15 and 4:20. These are the first earthquakes yet reported, but the outlook and the weather are favorable for a good yield.

Jottings.

—The soda war still rages.
—New Evans' header wagon went through Commercial Row and Virginia street at a rapid pace to-day. The horses ran away from the blacksmith shop.

—M. B. Dwelly, of Reno, and Geo. Seitz, of Elko, paid Genoa a visit last Thursday. They have been looking after mining interests in Silver Glance District.

Church Notices.

Service to-morrow as follows: Morning—Professor Woodman will preach. Evening—The Pastor will preach. Sunday School as usual.
There will be divine service at the Methodist Episcopal church, to-morrow at 11 A. M. and 8 P. M. Rev. C. McKelvey, officiating. Seats free. All are invited. Sabbath school at 12:15 P. M.

The Mastodons.

History often repeats itself. Conkling has retired and the news from the White House is favorable. Now then, A. Abrahams has gone to Bodie, and a GAZETTE special from the White House says that L. Abrahams has received another invoice and will sell the stock at purchasers prices. Dress well if you don't save a cent.

Salt Lake and San Francisco.

Colonel Lyman Bridges with twelve men passed through Reno for Hawthorne yesterday morning. From that point they will commence a section of the survey for Jay Gould's projected railroad, from Salt Lake to San Francisco. The tents, camp fixtures and surveying instruments followed the party this morning.

Notice to Country Merchants.

The card of J. I. Felter & Co. appears in to-day's GAZETTE. The firm is one of the best on the coast and they have the largest stock they have ever carried. Dealers in the country can be certain of getting just what they send for. The goods will always be found exactly as represented.

PERSONAL JOTTINGS.

An aged brother of General Sam Houston is living in Chicago.
Ex-Governor Coburn, of Maine, has given the State College \$10,000.
The widow of the late E. A. Sothorn is dangerously ill from cancer.

Queen Victoria has been presented with a golden axe by the Ashantes.
The Marquis of Lorne will continue in office until the close of his term in December, 1883.

The Prince of Wales has subscribed 100 guineas toward the National memorial of the Earl of Beaconsfield.

It is said that General and Mrs. Grant will receive much company at Long Branch this summer. Senator and Mrs. Don Cameron will be their guests.

Governor Colquhitt, when told the other day that the Legislature of Georgia had organized, said that he had no message to communicate to it.

General Grant has, it is reported in the Cincinnati Enquirer, sold his farm in St. Louis county, Missouri, to Mr. Jay Gould for \$75,000. The farm contains over 200 acres and is well improved.

F. N. Crouch, the author of the famous song "Kathleen Mavourneen," an Englishman, who was a soldier in the Confederate army, is living at Baltimore at the age of more than seventy years, and in straightened circumstances.

A Lesson to Graduates.

Brooklyn Eagle.

An Ohio paper says that a young lady who graduated in a calico dress a few years ago, is now married to a railroad superintendent who has an income of \$500,000 a year. This may be a basis for the graduation of graduates hereafter. Had she worn alpaca she might have done even better, and caught the general manager of the road. On the other hand, had she bloomed forth in white swiss, she might have captured the President of the concern, with his untold millions, while had she worn silk, with point lace and diamonds, she might have scooped in the conductor of a passenger train, and had onyx staircases and alabaster walls to her house, and cut the wives of the officers of the road as society altogether too thin for her style. This thing ought to be a lesson to girl graduates and a sharp warning to patronize their tailors liberally.

A Prophetic Sportsman.

London, it seems, is the happy possessor of a prophet, who, through unusually good luck or shrewdness, has rightly predicted the result of the Derby for several years. He is thus described by the London correspondent of the Philadelphia Telegraph: "In St. James street, Piccadilly, there is a fashionable saddler's shop owned by Mr. Samuel Merry, who, I believe, is also a trainer. For the last five years Merry has hung in his window on the morning of the Derby day the colors of the winning horse hours before the race has been run. This year Mr. Merry was right, as usual, and the cherry and black which Iroquois carried to victory were displayed in the window by 9 o'clock in the morning. Mr. Merry has come to be regarded as a prophet of the first water, and many men wait religiously until they see Merry's colors before laying or taking odds upon the great event."

Ingenuous Telegraphing.

By the exercise of a little ingenuity the names of the placed Derby horses were conveyed across the Atlantic in the form of a single word—or rather imitation of a word—of nine letters only. It was arranged that the first three letters of the successful horses' names should be cabled, and the message therefore ran: "Iroquois." This was readily translated into Iroquois, I; Peregrine, 2; Town Moor, 3. Mr. Lorillard had a message in this style forwarded to him from the grand stand.

A Genuine Miracle.

Rev. Father Schneider was preaching to some 200 nuns of one sisterhood at Montreal. He spoke of those who say it is difficult to retain faith in these days because in the absence of miracles. "Foolish people," exclaimed the Jesuit father, "when before their eyes is the greatest of all miracles—100 women agreeing to live together as sisters!"

A Single Stone.

from a running brook flew the giant Goliath, and millions of a noble man since that time have died from a single stone in the bladder, which Warner's safe Kidney and Liver Cure would have dissolved and carried away.

A Fool Once More.

"For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used up a small fortune in humbug stuff. Six months ago I saw a U. S. flag with Hop Bitters on it, and I thought I would be a fool once more. I tried it, but my folly proved to be wisdom. Two bottles cured her. She is now as well and strong as any man's wife, and it cost me only two dollars. Such folly pays.—H. W., Detroit, Mich."
